

Height Clearance Bars

Aluminium Height Bar eliminates damage to vehicles and property caused by over height vehicles. The new aluminium design of the height bar has a larger face for improved visibility. The height bar range is available in five standard lengths or custom made to any length.

All height bars are supplied with hanger assembly and chain. Standoff brackets are sold separately. All height bars are powder coated Safety Yellow with reflective face and display "LOW CLEARANCE" text and the required clearance (please specify text when
